Scroll Views and Auto Layout

raywenderlich.com

Scroll Views and Auto Layout

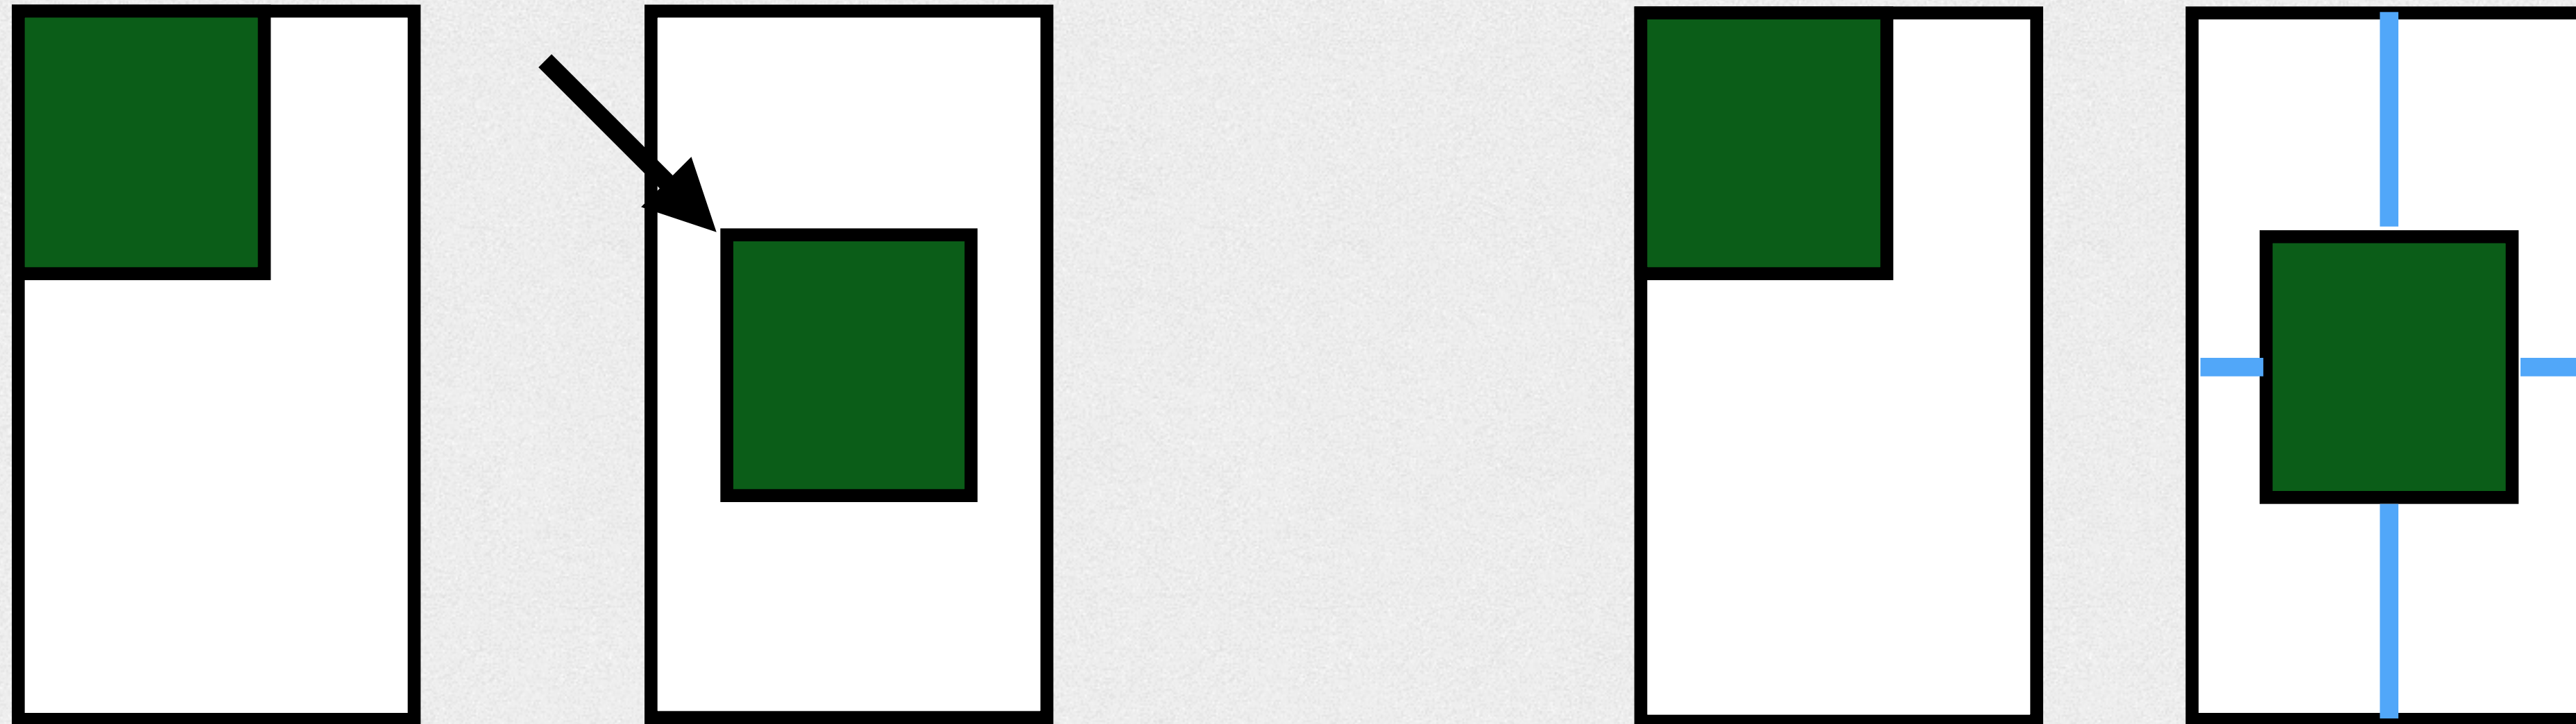

- ⚙️ You pin subviews to edges of content view (not visible area)
- ⚙️ You don't set content size directly (it's auto-determined by constraints)

Demo: Basic Scrolling and Zooming

Centering Content

- ⚙️ Previously, you changed the frame of the inner view
- ⚙️ **Don't do that** with auto layout!

- ⚙️ Modify constraints instead
- ⚙️ Keep references to constraints, update constants

Demo: Centering Content

Challenge Time!
